**ESSAY  
QUESTIONS**

Please choose at least 2 of 3 the essays below to answer. A maximum of 300 words is permitted.

40. 1. Some people tell us “the ends justify the means”. Should scientists follow this statement and ignore ethical issues in their research? If scientists follow ethical guidelines, will our knowledge of science be hindered? Your answer should reflect your passion for science and your ability to think as an intellectual. You will not be judged on your opinion. (Up to 300 words)

---

---

---

---

---

41. 2. In recent years, public opinion has been swayed by a range of influences. Science has been viewed as just one of many voices, no longer viewed as trusted experts. As a future science professional how should we address this credibility gap? How would you advise the scientific community to work with the public to regain their confidence / credibility? (Up to 300 words)

---

---

---

---

---

42. 3. Describe a specific scientific topic, idea, concept or theory that interests you and explain why it inspires you. (Up to 300 words)
